### Section 1: General Statements

**WHEN REQUIRED:** Building code permits are required of any owner, authorized agent, or contractor who desires to construct, enlarge, alter, repair, move, demolish, or change the occupancy or occupant content of a building or structure, or any outside area being used as part of the building's designated occupancy (single or mixed) or to erect, install, enlarge, alter, repair, remove, convert or replace any electrical, gas, mechanical or plumbing system, the installation of which is regulated by the technical codes, or to cause any such work to be done. Application for the same shall be first made to the building official, and the required permit obtained, before beginning with the work.

Electrical, mechanical and plumbing job valuations that exceed minimum permit fees will be charged according to the valuation of the contract.

**PENALTY FEES:** Whenever a job requiring a permit has been commenced without first obtaining a permit, the permit fee will be doubled.

**APPLICATION FEES:** An application processing fee of \$33.08 shall be assessed upon each permit application filed with the Building Official.

**INSPECTION PROCEDURE AND FEES:** For work requiring one or more inspections, the applicant may request an inspection to be performed at a specific time during the regular 8:00 A.M. to 4:30 P.M. work day. This procedure carries a \$55.13 surcharge for each inspection and a \$105 surcharge for each electrical, mechanical and plumbing inspection.
